Shows if a car is present at any order
point in the drive-thru lane

Configure Headsets in Seconds

Rapid sync feature registers headsets
in four seconds flat

Manager Mode

Manager can take over from original order
taker with one press of a button

Extended Equalizer Audio Range

Customize frequencies for the best inbound
audio for your unique environment

Maximum Clarity

Digital noise reduction and echo
cancellation controls

Text-to-Speech

Transcribe greetings, reminders, and alerts with
natural-sounding computer vocalization

Seamless Updates

Easily install updates with USB-compatible
firmware downloads

A NEW WAY TO DRIVE-THRU

NEVER WORRY ABOUT BATTERY LIFE.

We use powerful lithium-ion batteries that charge faster and last longer.

Rechargeable Lithium-Ion Battery

Easily charge batteries for maximized uptime

1 Year Warranty

Lithium-Ion Cell

3.7 V 660 mAh

0.5 oz Weight

6-Port Battery Charger

Charge up to 6 batteries simultaneously

LED Indicator

See the status of the battery charge or if the battery is faulty

Smart Charger

Monitors temperature
(if battery gets too hot will stop charging)

After 97% charged, battery charger will trickle charge to optimize and extend battery life

A NEW WAY TO **DRIVE-THRU**

COMPLETE HIGH DEFINITION AUDIO.

Fully HD inbound and outbound channels.

Inbound Noise Cancellation

The Future of Sound

The clearest end to end sound
for accurate orders every time.
Sound never degrades

17x Echo Cancellation

Total focus on the customer

Block Out Audio Distractions

Equalize sound and expand noise reduction
as far as you need to block out the bustle
of lunch rush and noisy engines

Instant Echo Cancellation

Usually you have to go through multiple
steps to reduce digital noise.
Not with APEX. Echo cancellation is as
easy as a press of a button
